# JCB RS GENERATOR RANGE

## 60kVA-125kVA

**WHEN IT COMES TO RENTAL GENERATORS, WE UNDERSTAND THAT YOU NEED TO HAVE CONFIDENCE IN YOUR POWER SOLUTION. YOU NEED TO BE CONFIDENT THAT YOUR POWER SOURCE IS AS RELIABLE, EFFICIENT AND HIGH PERFORMANCE AS IT CAN BE. AND YOU NEED TO HAVE CONFIDENCE THAT YOU'RE WELL SUPPORTED TO DELIVER POWER ANYWHERE IT'S NEEDED.**

The new JCB rental generator range offers you all this and more. Each generator boasts all the quality you'd expect from JCB, including innovative, efficient design, cutting edge engine technology and market-leading telemetry.

These British-built generators are also backed by unrivalled service and support all over the world, as well as comprehensive warranty cover.

JCB rental generators tick every box...

- ✓ Robust and durable
- ✓ Efficient and high performance
- ✓ Easy to use
- ✓ Quick and easy to maintain
- ✓ Remote machine management
- ✓ Unrivalled aftercare support

<b>JCB DIESELMAX 4 CYLINDER ENGINE STAGE IIIA</b>		448 G-TC 60	448 G-TC 72	448 G-TCA 92	448 G-TCA 120
<b>FUEL RUN TIME</b>	Hrs	23	18	15.5	12
<b>DIMENSIONS</b>	mm	3,330 x 1,100 x 1,800			
<b>WEIGHT</b>	kg	2,400			
<b>NOISE LEVEL</b>	dBa at 7m	65			

## 5 REASONS TO BUY THE NEW JCB RS RENTAL GENERATORS

### ROBUST DESIGN

Rental machinery often has a hard working life. That's why we've made our whole rental generator range extremely robust as standard. A tough exterior helps keep internal componentry intact during operation and movement, and an oversized bundled base protects the whole generator.

### EFFICIENCY AND PERFORMANCE

With JCB Power comes JCB efficiency. The award-winning innovative Stage IIIA JCB Dieselmex engines are built in the UK and provide clean, safe and quiet power. More importantly, they're incredibly productive on any site. This range of generators is designed to ensure you get more power for every drop of fuel. Not only that but we've minimised pollution – from emissions, contaminants and noise.

### LESS SERVICING, MORE SERVICE

We recognise that you want your generator to spend as much time as possible working, not being worked on. That's why our rental range is

incredibly easy to maintain and our extensive JCB dealer network gives you all the local support and global coverage you could need.

For maximum productivity, engine service intervals are a lengthy 500 hours and to support operation of the generator, JCB's LiveLink for Power telematics is built into every generator we manufacture.

### LIVE DATA, REAL KNOWLEDGE

JCB LiveLink for Power uses the latest technology to help you monitor and manage your generator remotely via web, email or phone. This cutting edge hardware is standard-fit on any JCB generator over 60kVA. Every RS rental generator therefore supplies you with all the knowledge you need to provide power to any rental application on earth.

### EASY TO USE

So that you can get your power up and running quickly and easily on any site, the RS range is intuitive to use. The distribution panels, sockets and busbar are all housed in the same place and connecting cables is simple with a heavy duty busbar as standard on every RS generator.

## JCB LIVELINK PUTS THE POWER IN YOUR HANDS

### JCB LIVELINK FOR POWER GIVES YOU COMPLETE CONTROL

JCB LiveLink for Power is JCB's most advanced telematics to date. It gives users details of the amps, volts and loading of the unit as well as all the other engine information, generator location, and security features users expect from JCB LiveLink. It also has emergency stop activation and fuel notifications, the most frequent reasons for reported generator failure.

JCB LiveLink for Power will improve profitability for end users and dealers as well as giving JCB invaluable data for future designs and engineering.

### MONITOR AND MANAGE ONE GENERATOR OR AN ENTIRE FLEET

With a simple single access portal and no limit to the amount of data that can be stored, LiveLink provides all the information you need to efficiently manage your power generators. Whether you have one generator or an entire fleet, LiveLink can provide a powerful reporting tool.

## LiveLink compatibility

LiveLink is now available as a factory fit feature as standard from 65kVA upwards and can be added as an optional extra on QS products under 65kVA.

<b>STANDARD</b>	<b>QS 65 – 220kVA</b> [Fitted with DSE 4520 control panel]	<b>DIESELMAX ENGINE</b>
<b>STANDARD</b>	<b>QX 250 – 600kVA</b> [Fitted with DSE 7320 control panel]	<b>SCANIA ENGINE</b>
<b>OPTIONAL</b>	<b>QS 20 – 45kVA</b> [Fitted with DSE 4520 control panel]	<b>JCB BY KOHLER ENGINE</b>

# KNOWLEDGE IS POWER

**Puts the power in your hands.**

**JCB LiveLink gives you complete control of your generators to keep the power on!** LiveLink improves productivity, maximises uptime and make it easy to manage the health of your generators by providing essential operational data. The most up-to-date information about how your generators are performing or where they are located becomes even more critical when it comes to making the right decisions. The more knowledge you have to generate uptime, the better value for money your generators deliver.
