9999/6035 Attachments Agriculture Customer Brochure 2018 Iss 1 01/18

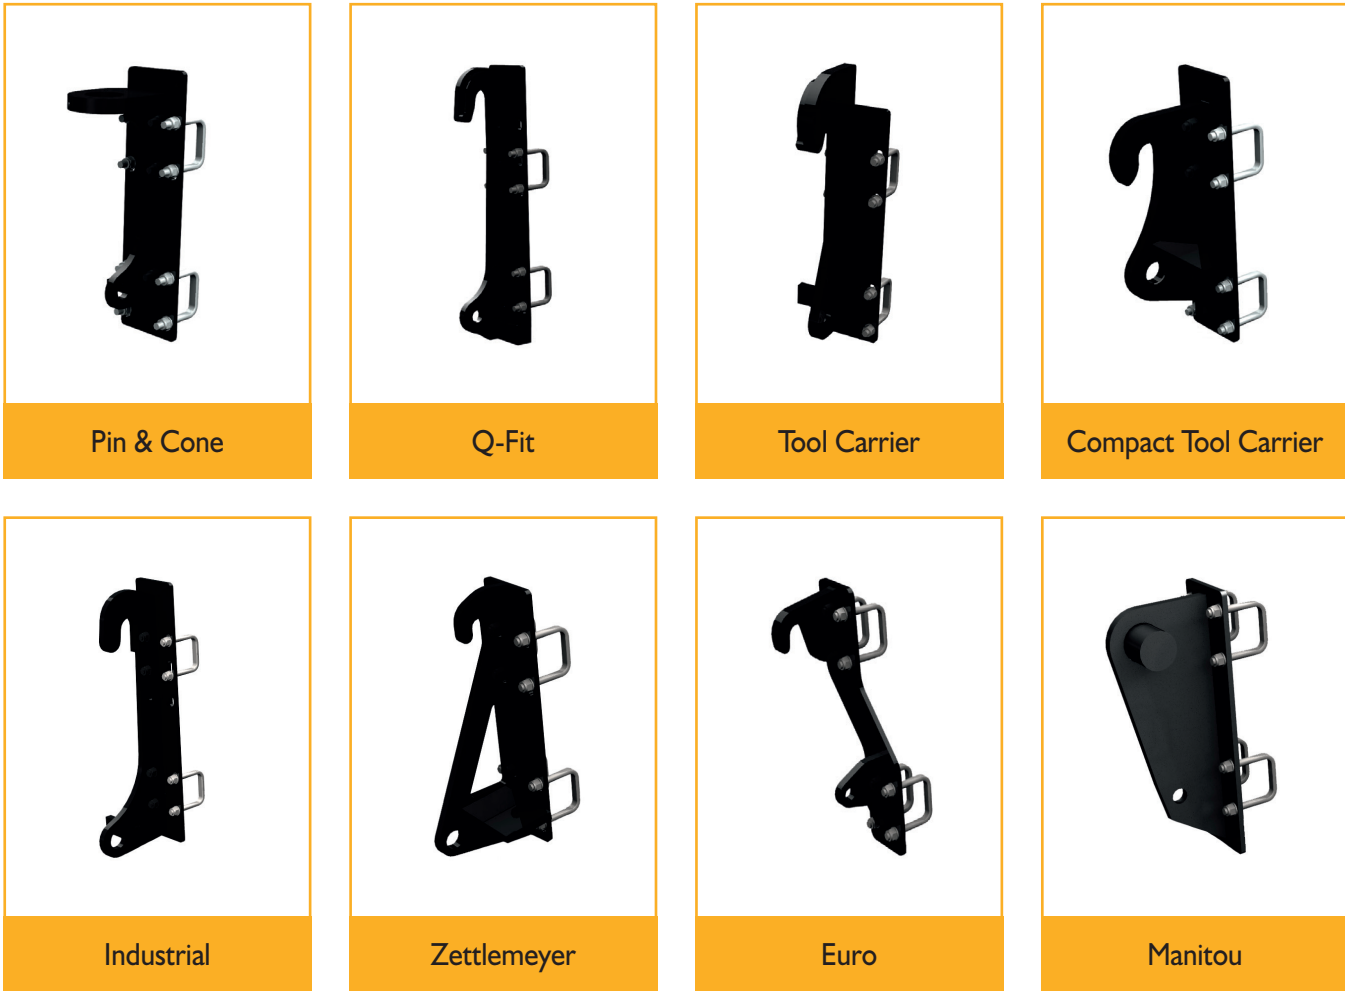

Agricultural Attachments

Bolt on Brackets

- Available in 8 different pick ups
- Allows for greater machine and attachment versatility

Beaver Powerpacks

- Unique suction circuit eliminates pulsation damage to cooler
- Lift up handle makes portability second to none
- Power-on-demand system that reduces off load engine speed to idle, giving reduced noise levels, less engine wear and lower fuel consumption
- Integral hose track prevents damage to hoses
- Swing open frame provides excellent maintenance access to engine and hydraulics
- Adjustable hydraulic flow gives precision control of tools

Multi Shovel

- Now available in 32 variants with improved shovel strength
- New end damped hydraulic cylinders fitted as standard meaning improved refinement, reduced shock load and increased durability
- The multi shovel grab opens to 1.75m, enabling the easy handling of silage, manure, round and square bales and timber
- Integrated spill guard size increased but still maintained good visibility
- Available as a fully fabricated grab or with forged bolt-on tines
- Available with weld on as well as bolt on toeplates
- Level indicator for shove positioning and efficiency

Power Grab

- Wide range of tine options using forged and Hardox variations to suit all applications featuring improved bosses on the forged tines on the top grab to maximise strength
- Larger opening top grab with a greater clamping force to handle bigger and bulkier loads
- Hoses are clamped neatly out of the way of debris to reduce the chance of damage
- Improved spill guard design to protect the hitch on the machine

Grain Shovel

- Anti-corrosive paint and option of adding a versatility-boosting bucket brush
- Manufactured using Domex 700MC high tensile, low weight steel
- Wear strips on the underside to help prolong the life of your shovel

Shear Grab

- Designed for heavy duty work for loaders and telehandlers, featuring hardox or forged tines
- Cutting blades are individually replaceable to minimise repair costs and increase longevity and performance
- Number of mounting options available as well as option of bolt-on brackets for maximum versatility
- Two opening height options available: 0.8m and 1.2m

Dumpster

- The HTD5 is a compact, walk behind, high-tip, diesel powered Dumpster designed by JCB to save you time, energy and money
- Easy to use, with 2 speed tracking for both added precision and travelling across site
- Large load capacity of 500kg
- A pull-out engine gives easy access for daily checks, servicing and maintenance

Bucket Brush

- A versatile tool which can be used to sweep a variety of materials such as mud, grain, slurry, aggregate and equine waste
- Easily fitted to our range of grain/potato shovels and our general purpose shovels

Grain Pusher

- Designed to make optimum use of your grain store capacity
- 2286mm (90in) blade and tubular frame for ultimate strength and minimum weight
- Useful especially when operating over above-floor drying ducts
- No flat edges so grain can fall freely
- Large blade height of 0.846m

Folding Grass Forks

- Designed for use on a wheeled loader and made to a high specification
- Hydraulically operated side extensions allow you to reduce the unit's width for easy roading and transportation

High Capacity Grass Forks

- Designed for handling large volumes of grass during silage work
- Now available in more size options than ever, from 2438mm to 3048mm plus extensions
- Includes a rear spill guard and hardox tines
