QUICK HITCHES.

THE USE OF A QUICKHITCH ALLOWS FAST CHANGEOVER OF ATTACHMENTS, KEEPING THE MACHINE HARD AT WORK AND SAVING DOWNTIME EVERY SHIFT. THE RANGE INCLUDES BOTH MANUAL AND HYDRAULIC HITCHES.

HYDRAULIC HITCH

- Fully controlled from within the cab with boom position sensors to ensure operation within a safe zone
- CE marked and tested for use on JCB Compact Excavators
- Two independent locking mechanisms ensure the attachment is held safely ensuring operator safety

MANUAL HITCH

- Mechanically operated with spring loaded lock released by use of a tommy bar
- High visibility safety lock pin prevents loss of any attachments
- Durable design with hardened steel jaws that keep wear to a minimum

BUCKETS.

WITH OVER 100 BUCKETS IN THE RANGE THERE IS ONE TO SUIT THE APPLICATION YOU HAVE IN MIND. DIGGING, GRADING, DITCH MAINTENANCE, OR FOR ULTIMATE VERSATILITY, THE JAW BUCKET – TWO BUCKETS IN ONE WITH THE POWERFUL JAW ABLE TO GRAB PIPES. REPLACEABLE WEAR PARTS AVAILABLE FOR EXTENDED WORKING LIFE.

GENERAL PURPOSE BUCKETS

- Innovative design profile for ultimate digging, retention and release

RIBBED BUCKETS

- Additional wear strips fitted to the rolled back shell give additional strength and rigidity

BLADED BUCKETS

- Bladed design enables bucket to achieve the desired flat bottomed trench

DEDICATED BUCKETS

- Purpose designed for use with a quickhitch

BUCKETS.

DITCH MAINTENANCE BUCKETS

- Drainage holes on ditch maintenance buckets allow water to escape, giving a better fill factor

TAPERED DITCHING BUCKETS

- The ideal tool to help maintain ditches and drains

GRADING BUCKET

- The perfect tool for bank forming and landscaping

JAW BUCKETS

- Two attachments in one, a standard digging bucket and a hydraulic jaw for grabbing awkward loads

HYDRAULIC BREAKERS.

JCB ATTACHMENTS OFFER TWO RANGES OF HYDRAULIC BREAKERS DESIGNED TO PROVIDE CUSTOMERS A SOLUTION FOR ALL APPLICATIONS AND BUDGETS. BOTH RANGES ARE SUPPLIED WITH A BEST IN CLASS THREE-YEAR WARRANTY AS STANDARD. AVAILABLE AS TOP MOUNT OR UNIVERSAL FOR NON JCB MACHINERY.

CONTRACTOR BREAKERS

- HM033T and above contractor breakers have accumulators as standard to protect the carrier machine from hydraulic pressure spikes
- Stroke adjusters on the HM054T allow operators to adjust the tool speed and stroke length for increased productivity
- Moil and chisel tools provided as standard

3YEAR
JCB STANDARD WARRANTY

PROFESSIONAL BREAKERS

- The professional breaker range has been designed and built to work in specialist dedicated breaking applications
- Supplied 'ready to go' with hoses, hanger bracket, moil and chisel tools
- Their solid body design provides maximum strength with lower weight and the low maintenance accumulator helps reduce maintenance costs

SPECIALIST ATTACHMENTS.

JCB ATTACHMENTS OFFER A RANGE OF SPECIALIST ATTACHMENTS TO PERFORM THE TOUGHEST OF APPLICATIONS.

RIPPER TOOTH

- Breaks up hard surfaces such as frozen or compacted earth, concrete or tarmac
- Replaceable tip for even longer service life

SELECTOR GRAB

- 360° unlimited rotation
- Perforated shells offering greater material retention and improved visibility

CRUSHER BUCKET

- Perfect for on-site crushing of all types of inert material
- Works by taking advantage of the hydraulic system of the excavator machine

HAND HELD TOOLS.

JCB HAS A COMPREHENSIVE RANGE OF HYDRAULIC TOOLS WHICH HAVE ALL BEEN DESIGNED FOR MAXIMUM PRODUCTIVITY. PROVEN IN THE FIELD THEY INCLUDE BREAKERS, PUMPS, AN EARTH DRILL AND DRILLS

FIND OUT MORE

BREAKERS

- Easy to use hand held breakers, which are more productive than pneumatic equivalents

EARTH DRILL

- Thanks to its hydraulic drive, this unit has more torque than most petrol engine units
- Automatic return-to-neutral controller for added safety

HYDRAULIC DRILL

- The lightweight, compact design makes the drill a very manageable tool
- Heat insulated handle

DIAMOND CORE DRILL

- Perfect tool for a wide range of diamond core drilling jobs
- Side handle for ease of use
- Can be used under water for extra versatility

PUMPS

- Rugged, durable pump used for pumping water with mud, leaves, twigs, sewage and sludge in it (trash pumps) and clear water (submersible pump)
- A unique combi-seal pre-vents any water entering the hydraulic fluid within the pump or vice versa

ONE COMPANY, OVER 2,000 ATTACHMENTS.
